The Building

Moddefontein Industrial Complex

The Modderfontein Industrial Complex in Edenvale, operated by AECI, is a well-established and secure industrial hub offering a variety of unit types suited to diverse commercial applications. The site comprises multiple warehouses, light manufacturing, and heavy industrial units, ranging from compact storage workshops to expansive factory spaces fitted with overhead cranes and large yard areasEnsuring uninterrupted operations, the complex benefits from a dedicated high-capacity electrical infrastructure that isolates it from broader grid disruptions, serving as a “no electricity cuts” zone. Each entrance is safeguarded by a professionally staffed gatehouse, adding a robust layer of perimeter securityFrom an amenity’s standpoint, the complex provides functional features tailored for operational efficiency: three-phase power is available in smaller units, while larger facilities benefit from upgraded power access; bathroom facilities are standard; and expansive yard areas facilitate easy loading, unloading, and vehicle maneuvering. Additionally, the complex enjoys a strategic location near High Street, with quick access to the N3/N1 routes, OR Tambo International Airport, Greenstone and Modderfontein shopping centres, and the nearby golf course, supporting logistical convenience and workforce commuting. Altogether, AECI’s Modderfontein Industrial Complex combines flexible industrial space, dependable utilities, stringent security measures, and a prime East Rand location—making it an attractive option for manufacturing, warehousing, and commercial tenants.
